Crestwood Elementary serves students from 4-Year-Old Kindergarten through Fifth Grade. Our staff is dedicated to challenging every student academically while supporting their social and emotional development. Our environment is grounded in our strong relationships with students and families. Our goals are to ensure that every student actively engages in the learning process, has access to a rigorous curriculum, understands and respects all people, meets their individual growth goals and is a happy and productive member of a global society.

School Principal: Britta Hanson

Equity Vision

Staff, students and families will work as determined partners to embrace our community's diversity to provide an all inclusive education so that everyone feels welcome and thrives in our Crestwood community.

Strengths

Our school enjoys a strong partnership with parents and the community at large. Staff works to engage students in meaningful curriculum based on the Common Core State Standards. We have a vibrant Outdoor Education program and utilize our school forest, gardens and orchards to connect our curriculum to the natural world around us. When you visit Crestwood you will notice the caring relationships between staff and students as well as engagement in relevant learning experiences. Crestwood is a great place for children to learn and grow!

Progress

We set aggressive reading goals in our 16-17 SIP and we met all them for our 3rd-5th grade learners! This deliberate attention to using assessments to better target our instruction to the strategies and skills that students actually need to learn in order to become more critical readers really paid off for our students. Our African Americans, English language learners and our students with special needs made exceptional growth.

Area for Growth

We will continue to focus on the foundational skills in reading as well as implement a new math curriculum. Our staff will have more opportunities for structured collaboration around instructional practices in order to increase the reading proficiency of all of our students. We are improving our communication and focusing on being in a partnership with each other, our students and our families.

Vision Connection

Our school supports MMSD's vision that all students acquire the skills and abilities needed to be successful, including a mastery of content areas, growth mindset, self-knowledge, creativity, wellness, interpersonal skills, confidence, cultural competence, and community connection. Through these skills and abilities, our students will graduate college, career, and community ready.
